BULL PREP® PRODUCT

-  **Bull Prep®** is a specialised sale bull preparation and feeding program. Designed, formulated and manufactured by **COWRAFeed**
-  **Bull Prep®** is a performance feed formulated for long-term health of sale bulls. It is designed to:
 - ✓ Protect fertility
 - ✓ Promote joint health
 - ✓ Increase longevity
-  **Bull Prep®** is a grain based 7.5mm pellet containing:
 - ✓ High quality locally sourced grains
 - ✓ **Bull Prep Premix®** - a specially formulated premix containing vitamins, minerals and supplements
 - ✓ Cal So Mag + Rumensin®
 - ✓ Almond Meal oil based fibre
-  **Bull Prep®** contains a double action buffer delivery system utilising both Sodium Bi-Carbonate and Acid Buf.
 - ✓ Sodium Bi-Carbonate is a fast-acting alkaline compound that neutralizes acids in the rumen, helping to maintain a healthy pH level.
 - ✓ Acid Buf is a slow-release rumen conditioner made from calcareous marine algae. It has a unique honeycomb structure that breaks down slowly in the rumen, providing a sustained release of buffering agents. This neutralises acids over a longer period, helping to maintain a stable rumen pH and can improve rumen fermentation and fibre digestion, leading to better feed efficiency.
-  **Bull Prep®** specially formulated ration has been prepared to:
 - ✓ Promote microbial activity
 - ✓ Improve rumen health
 - ✓ Increase feed efficiency
-  **Bull Prep®** is an easy 3-step induction and feeding program for low management.
-  **Bull Prep®** has been designed and formulated with the input from Paul Cusack (Australia's leading performance ruminant nutritionist).

Bull Prep® is available in 20kg bags, Bulka Bags, or Bulk

BULL PREP® FEEDING PROGRAM

Step 1 - BULL PREP 1®

- Week 1 - this is the start of the preparation program.
- **Bull Prep 1®** is specially formulated for the first week of feeding. It:
 - ✓ Introduces the rumen to grain based feeding.
 - ✓ Begins and promotes microbial growth and activity.
- **Bull Prep 1®** is safe for self feeder management and individual feeding management. Always provide plenty of fresh water and hay.

Step 2 - BULL PREP 2®

- Week 2 - Introduce **Bull Prep 2®** at the start of week 2.
- Feed **Bull Prep 2®** for week 2 and week 3.
- **Bull Prep 2®** is specially formulated for the second and third week of feeding. It:
 - ✓ Introduces the rumen to a higher starch ration.
 - ✓ Promotes specific microbial growth and activity.
 - ✓ Prepares the rumen for the final step of preparation and feeding.
- **Bull Prep 2®** is safe for self feeder management and individual feeding management. Always provide plenty of fresh water and hay.

Step 3 - BULL PREP 3®

- Week 4 - Introduce **Bull Prep 3®** at the start of week 4.
- Feed **Bull Prep 3®** for the remainder of the preparation and feeding period.
- **Bull Prep 3®** is safe for self feeder management and individual feeding management. Always provide plenty of fresh water and hay.

Phosphorus %	0.31	0.31	0.3

Recommended Feeding Guide

Large Feeding Regimes (More than 10 bulls)

✓ Mixer Wagon

- Add hay component and process, then add Bull Prep®
- 5kg/head/day of hay to 6kg/head/day of Bull Prep®
- Suitable to feed out in self feeders or feed troughs
- Also provide ad-lib hay in paddocks as a suitable roughage source
- Always provide plenty of fresh drinking water

*Do not use Bull Prep® in conjunction with any other products. Use only as directed.

Small Feeding Regimes (Less than 10 bulls)

✓ Individual Feeding

- Feed Bull Prep® at the rate of 6kg/day
- Also provide ad-lib hay in paddocks as a suitable roughage source
- Always provide plenty of fresh drinking water

✓ Small Group Feeding

- Feed Bull Prep® at the rate of 6kg/head/day
- Also provide ad-lib hay as a suitable roughage source
- Can be fed out into troughs
- Suitable for group feeding
- Always provide plenty of fresh drinking water

*Do not use Bull Prep® in conjunction with any other products. Use only as directed.
