

Seasons Range

Grain Mix

Pellets

Ruminant Reviver

Specifically designed to address and manage the nutritional and vitamin needs for ruminants - when they need it. Contains Barley and Lupins with a precise mineral and buffer pellet targeted for each season. Available in a grain mix or a pellet.

YOU CAN'T CURE A DEAD COW.....BUT YOU CAN SAVE ONE

AUTUMN (Potential fresh green growth. Potential cold snaps and wet windy weather)

- Tetany alert – Magnesium and Calcium requirements high
- Autumn calving/lambing
- High in Selenium to prevent white muscle disease
- Added Salt – is important for Magnesium absorption across the Rumen wall
- Focus on prepping females for the Winter – body condition

Protein (%DM)

15%

ME (MJ/kg DM)

12.5MJ

Mg – 3.58g/kg

Ca – 4.81g/kg

Se – 0.1mg

Salt – 5g/kg

WINTER (Limited feed availability, diminished feed nutritional and mineral values. cold, wet)

- Energy alert – high Energy requirements with extra Protein
- Calving/lambing – Magnesium and Calcium
- Joining/conception for Autumn calving/lambing- Selenium and Zinc
- Includes Vitamin D to prevent rickets in lambs on cereal crops
- Focus on preparing females for the upcoming Tetany alert

Protein (%DM)

15.5%

ME (MJ/kg DM)

12.9MJ

Mg – 3.58g/kg

Ca – 4.81g/kg

Se - 0.1mg

Zn – 30mg

Vit. D -200IU

SPRING (Fresh short green fast growth. Potential wet windy and cold snaps)

- Tetany alert - Magnesium and Calcium requirements high
- Calving/lambing
- Joining/conception rates for Spring calving/lambing – Selenium and Zinc
- Focus on joining – Selenium and Zinc

Protein (%DM)

15%

ME (MJ/kg DM)

12.5MJ

Mg – 3.58g/kg

Ca – 4.81g/kg

Se – 0.1mg

Zn – 30mg

SUMMER (Limited nutritional value in standing feed. Hot dry weather)

- Micro Vitamin alert – A, D and E vitamin requirements
- Joining/conception rates for Spring calving/lambing
- Higher in Sugar which enhances rumen function and promotes fibre digestion by stimulating beneficial rumen fungi
- Focus on maintaining body condition

Protein (%DM)

16%

ME (MJ/kg DM)

12.65MJ

Vit. A – 7000IU

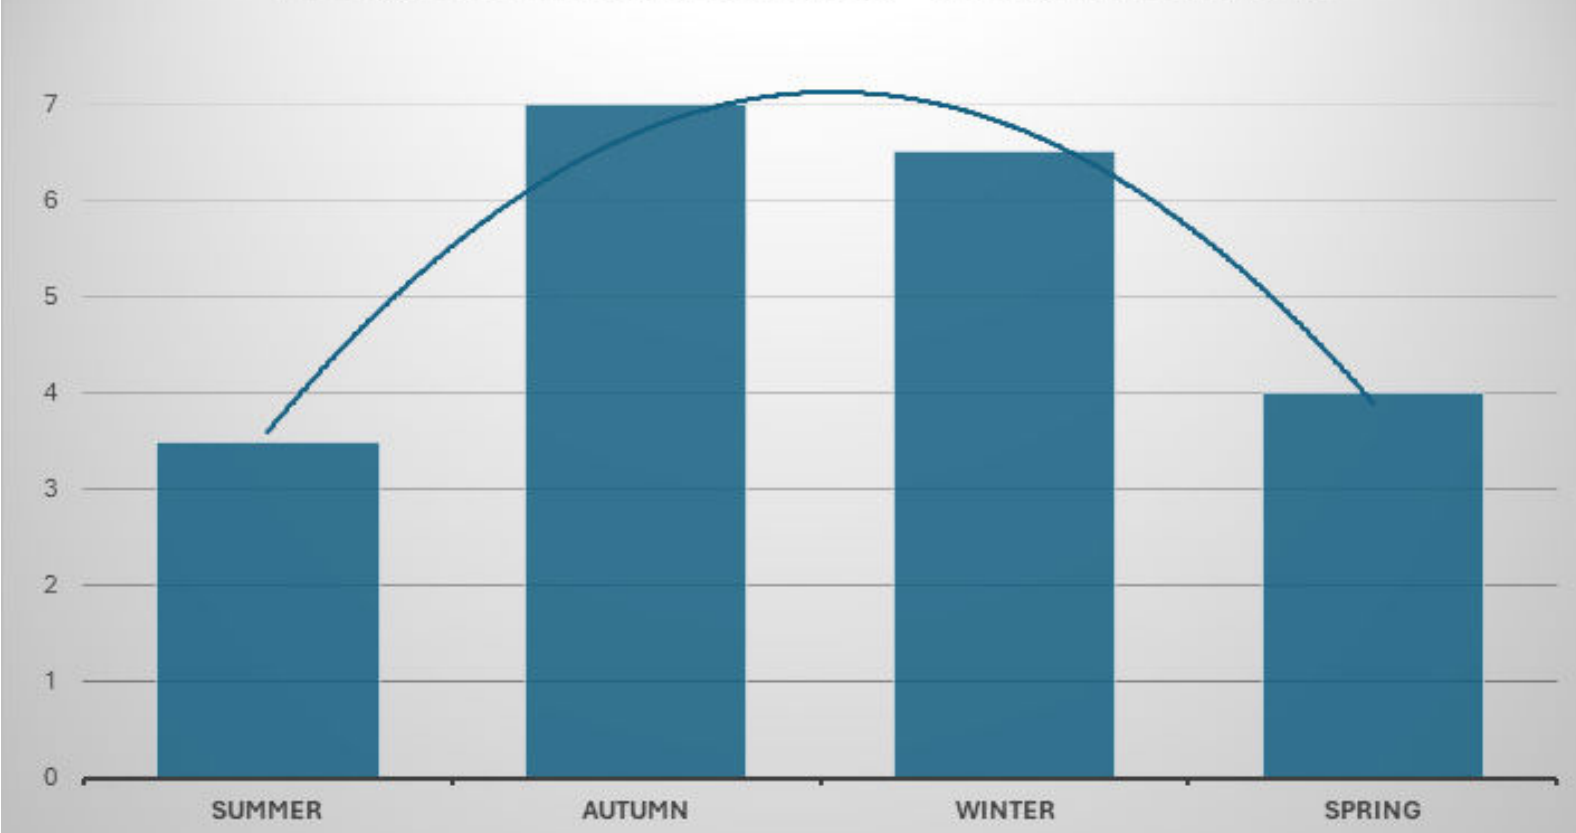

Vit. D – 200IU

Vit. E – 60IU

Se – 0.05mg

Sugar – 24.13g

Production Requirements - Autumn Calvers

Production Requirements - Spring Calvers
